

When you need to UPLOAD a document to eServices, just where do you go to do that? Even veteran CAP members have trouble finding this sometimes. Here is the route: Once in eServices, click on the **☰Menu** icon in the upper left, select **Operations Qualifications**, then hit the **OpsQuals** dropdown...

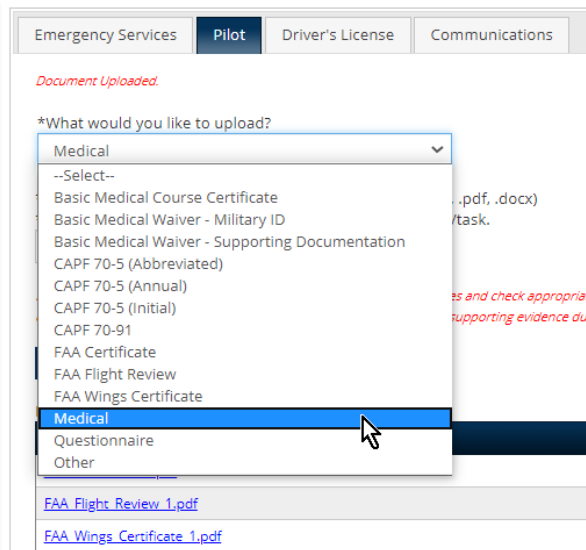

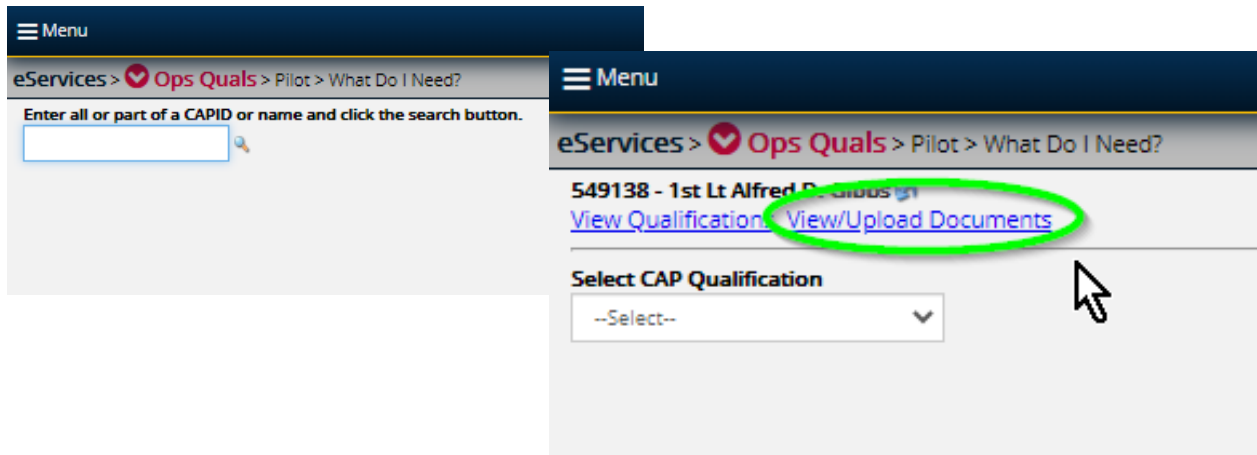

Under **Pilot**, select **What Do I Need...**

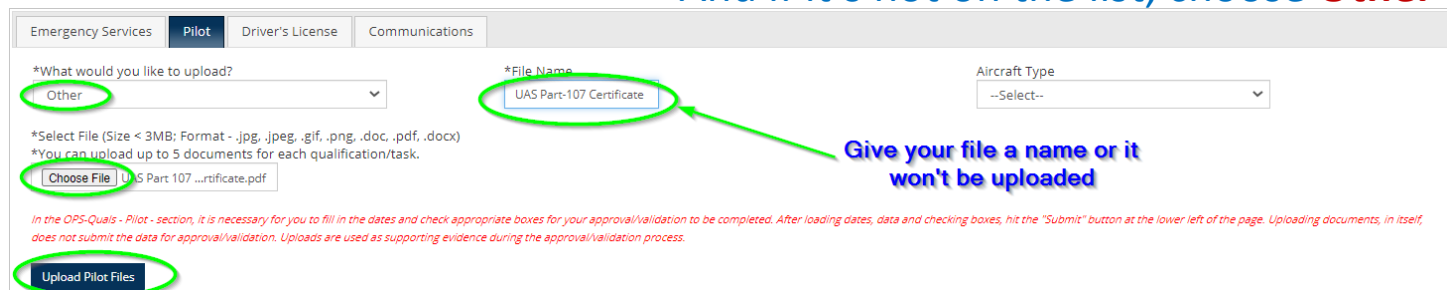

Enter your CAP ID and hit the **View/Upload Documents** link.

Choose the type of form you want to upload from the

What would you like to upload? drop-down list.

And if it's not on the list, choose **Other**

After about a minute, you should see: **Document Uploaded.**
